What did you like most about the activities? Which activity did you like the best?
1. interesting games. The “At Home” game
2. not anyone in particular, but they seem to be interesting.
3. I liked the “At Home” game. It’s more interesting than the others.
4. They were fun. I liked the “Phonics Matching Game”.

What didn’t you like about the activities? Which one did you like the least?
1. sometimes it’s overwhelming, especially the one with the bug
2. I couldn’t understand some instructions, and some words in the games.
3. I didn’t like the song because it was too easy. Also, the phonics matching game was a little confusing. It doesn’t tell you that when you click the picture, you can hear the pronunciation of the word. Neither does it tell you that the letters below have already been grouped, you just need to pick the first letter from the first group, and the second letter from the second group, and so forth, when you make a mistake, it doesn’t tell you how the mistake is made, so I didn’t get any hint to improve for the next trial.
4. I liked them all!

What made you sing along?/Why didn’t you sing along?
1. didn’t feel like it.
2. I wasn’t sure if I could pronounce the words correctly because I didn’t recognize them all, plus I didn’t think I NEEDED to sing.
3. It was too easy.
4. The instruction told me to sing, so I sang.

After playing one activity, were you excited to go on to the next one? Did it make you want to play the next game?

2. Somewhat.
3. Yes
4. Yes.

Would you like to use this product to help you learn English? Why/Why not?
1. Yes. They have good games.
2. Yes. It looks interesting.
3. No strong preference.
4. Yes. I liked the games.
If you had a choice of playing this game or going to your regular ESL class, which would you do? Why?

1. This software. I like their games. The class gets boring, sometimes I don’t want to listen to the teacher after a while.
2. The software. I feel like falling asleep in class sometimes. This is more interesting than a class.
3. The class. The teacher is there constantly speaking and she involves us to speak.
4. The software. It is much more interesting than the class.

Which do you think would help you learn better?

1. This software, because I think it’s more interesting.
2. The software. I like their games.
3. The class. I feel better when there’s a teacher.
4. The software. The games are interesting.
