Friday May 18, 2001
Stanford University,
School of Education
Ceras, room 130 & the
Multimedia Lab
4:30 – 6:00pm

Join the LDT Master’s
students as they present
their innovative
educational designs and
Directions to CERAS Building at Stanford University

There are 2 options from San Francisco/San Jose—Highway 101 and Highway 280

1) Highway 101:
   * Take the University Avenue exit heading west (there should be signs for Stanford).
   * Continue on University Avenue for about 3 miles through residential areas, the downtown Palo Alto business district, and under the commuter train tracks.
   * As University crosses over El Camino Real and enters campus, its name changes to Palm Drive.
   * Follow Palm Drive until you reach Campus Drive.
   * Turn left onto Campus Drive East from Palm Dr.
   * Follow Campus Drive East to Alvarado Row and turn right.
   * CERAS is at the end of Alvarado Row.

2) Highway 280:
   * Take the Sand Hill Road East exit.
   * Continue on Sand Hill Road through 3 stoplights.
   * Turn right on Santa Cruz Avenue at the 4th stoplight.
   * Get in the left lane immediately, then into the left turn lane.
   * Turn left on Junipero Serra Blvd.
   * Continue past light at Campus Drive West.
   * Turn left on Campus Drive East.
   * Follow Campus Drive East to Alvarado Row and turn left.
   * CERAS is at the end of Alvarado Row.

Highway 280 generally has less traffic than 101, but it’s a little easier to get to campus from 101 than 280. The best place to park is near the corner of Abbott Way and Alvarado Row (behind the Law School).
